

Magical Home Learning Task

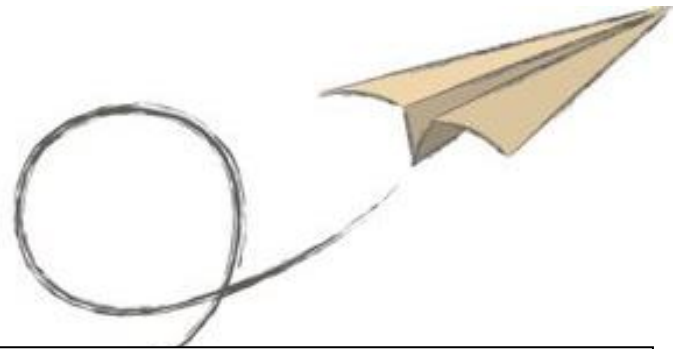

For term 5, your magical home learning task will be to design and make something linked to our 'Up and Away' topic. Again, there will be a certificate for everyone that completes their homework task.

You might like to:

Make or fly a kite. How did you make it? How did you make it fly?

Make a paper aeroplane. How far did it fly? Can you measure the distance?

Make a parachute. Does it float to the ground? Can you and your family have a competition to make the best parachute?

Why do bubbles float?
How many bubbles can you blow? Who can blow the biggest?

Please bring your work into school by the week beginning 22nd May. We can't wait to find out what you have found out.
